

Keys & Handsets

KEYS AND HANDSETS

You have been supplied with two remote handsets with integral keys which operate all locks.

H5032

The key number is stamped on a tag attached to the key ring. Check that the key number has been entered in the space provided on your Security card.

If required, additional handsets can be programmed into the system by your retailer.

If the remote handset is lost, contact a Land Rover retailer, who can supply replacement units.

NOTE: *Keep the security card and the spare handset in a safe place - NOT IN THE VEHICLE!*

IMPORTANT INFORMATION

The handset complies with part 15 of the FCC rules. Operation is subject to the following conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation. This applies to both alarm receivers and handset transmitters.

Any changes or modifications to the handset not expressly approved by the manufacturer or Land Rover North America could void the user's authority to operate the equipment.

Transmitter FCC ID: N5FVALTX3

Receiver FCC ID: N5VALTR3
