

Technical Data

Weights

Approximate unladen vehicle weight (full fuel tank, excluding options):

Petrol models 1380 - 1425 kg
Diesel models 1480 - 1525 kg

Max gross vehicle weight

Petrol models 1960 kg
Diesel models 2050 kg

Max rear axle load:

Petrol models 1120 kg
Diesel models 1120 kg

Max front axle load

Petrol models 1050 kg
Diesel models 1050 kg

Towing weights

Max trailer weight

Petrol models 2000 kg
Diesel models 2000 kg

Max nose weight*

Petrol models 140 kg
Diesel models 140 kg

Gross train weight

(maximum weight of vehicle plus trailer)

Petrol models 3760 kg
Diesel models 3850 kg

Max roof rack load 75 kg

NOTE: If the trailer weight exceeds 1800 kg, the vehicle payload must be restricted (ie. to less than the Gross Vehicle Weight) to ensure the loaded combination is within the Gross Train Weight limit.

* To improve stability, it is recommended that you adjust the nose weight to the maximum limit, when loading to the maximum trailer weight (also see note above).
