Total price

\$71,135

The Total Manufacturer's Suggested Retail Price (MSRP) includes configured options and destination fee.

MSRP

\$70,140

Destination Fee

\$995

Disclaimer

As a model year progresses, changes may occur in some of the specs, features, options and pricing. The manufacturer reserves the right to make such changes. Prices listed are Manufacturer's Suggested Retail Price (MSRP). Options may vary by region. See your Authorized Volvo Dealer for details. Colors, interiors and images of the vehicle are not a true representation of the actual colors and/or product. It's best to view the actual product at your Authorized Volvo Dealer. Dealer Accessories are defined as items that do not appear on the factory window sticker that are installed by a Volvo dealer. Actual prices for all accessories may vary and depend upon your dealer. Prices do not include installation or painting, which may be required for particular items. Please check with your authorized dealer for complete pricing accuracy for all accessories and parts. *Note for High Performance Summer Tires: The special tread compounds formulated for ultra high performance summer tires are optimized for maximum dry and wet performance in warm temperatures. The compounds in these tires will have decreased performance, such as lateral and braking traction, at temperatures below 45° F or when driving on snow or ice. In addition, they can lose flexibility and may develop random surface cracks at very cold temperatures; therefore extra care should be used in handling tires. It is recommended to install winter tires in these lower temperature conditions. Please note that the Summary and PDF pages may show two or three wheel included in the build (the standard wheel and optional/accessory wheel) but only one set of wheels will be delivered with your Volvo
