

MAINTENANCE CHECKSHEET - DISCOVERY (L462) - 2017MY

Maintenance must be carried out at intervals not to exceed 16,000 miles/26,000 km or 1 year, whichever occurs first. The engine management system will constantly monitor driving styles and conditions and a service may be required earlier than 16,000 miles/26,000 km or 1 year.

If the vehicle has a high proportion of short journeys or operates in severe conditions, Land Rover recommends that the maintenance procedures be performed at intervals not to exceed six months.
