ABOVE & BEYOND

Dear Current or Former Owner or Lessee:

This letter is to notify you that Jaguar Land Rover North America, LLC has decided to offer additional warranty benefits related to the Exhaust System Oxygen (O2) sensors installed in certain vehicles listed below:

LAND ROVER VEHICLES AFFECTED*	MODEL YEAR
LR2	2013-2015
Discovery Sport	2015-2017
LR4	2013-2016
Discovery	2017
Range Rover Evoque	2013-2017
Range Rover Sport	2013-2017
Range Rover	2013-2017
*Only vehicles fitted with a GTDi 2.0L, V6 3.0L SC, V8 5.0L, or V8 5.0L SC gasoline engines.	

This extended warranty program does not apply to Partial Zero Emission Vehicles (PZEV) registered in California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, New York, Rhode Island, or Vermont. The O2 sensors of PZEVs that are registered in these states are covered under an existing warranty of 15 years or 150,000 miles (whichever occurs first).

In line with our commitment to customer satisfaction, we are offering these benefits in response to reports of performance issues with exhaust system O2 sensors.

What is the Concern?

The O2 sensor concerns can be caused by either design or manufacturing variations or by system operating software and can lead to illumination of the check engine light (MIL) and potentially a minor increase in tailpipe emissions. There are no effects to vehicle performance. Vehicle repairs now benefit from enhanced system robustness improvements to component design, manufacturing processes, and operating software.

How long is the extended warranty?

The extended warranty limits are defined in the following table:

MODEL	PETROL ENGINE VARIANT	COVERAGE
Discovery Sport	2.0 L	15 years / 150,000 mi (whichever occurs first)
Discovery	3.0 L	
Range Rover Evoque	2.0 L	
Range Rover Sport	3.0 L	
Range Rover	3.0 L	
LR2	2.0 L	11 years / 120,000 mi (whichever occurs first)
LR4	3.0 L, 5.0 L	
Range Rover Sport	5.0 L	

Range Rover

5.0 L

What should you do?

Should your vehicle's check engine light illuminate, please contact your preferred authorized Land Rover Retailer, provide your Vehicle Identification Number (VIN) and make a service appointment to diagnose the concern.

Any required repairs/replacements to any O2 sensor or to O2 sensor operating software will be covered at no cost to you for the length of the applicable extended warranty period.

Land Rover recommends you keep a copy of this letter in your glovebox with your vehicle literature pack and it be provided to the new owner of your vehicle if it is sold.

What if I have previously paid for this concern?

If any current or former owner has already paid for this concern before the date of this letter, Land Rover is offering a refund. In order to qualify for a refund, please provide your authorized retailer with the original paid receipt. To avoid delays, please do not send the receipt to Jaguar Land Rover North America, LLC.

What should you do if you have further questions?

Should you have any questions regarding this program or need assistance in locating the nearest authorized Land Rover retailer, please contact the Land Rover Customer Relationship Center at 800-637-6837, Option 9.

You may also contact us by e-mail using the following address:
