1. WHAT'S NEW

Following the substantial refresh at 18MY there are no major updates to Range Rover at 19MY.

NOTE: Pricing for 2019MY will be the subject of a future announcement.

New Features

The Range Rover follows an all-new design language which adds new features, such as:

- Sliding Pano Roof Added as Standard Across the Model Range
- Tiered Pricing for Full Size Spare Wheel
- Black Brake Calipers Option
- 24-Way Heated/Cooled, Massage Front Seats w/ Power Recline Heated/Cooled Rear Seats
- New ADAS Functionality and Level 3 pack available
 - Drive Pro Pack (Level 2 ADAS) including Adaptive Cruise Control with Stop & Go (Auto Resume Feature).
 - Driver Assist Pack (Level 3 ADAS) including Adaptive Cruise Control with Steering Assist
 - Complete ADAS Structure included in following pages
- Wade Sensing
- Introduction of the Range Rover PHEV (Plug-in Hybrid Electric Vehicle) (First Order Call Expected Late Summer).
- Seating Improvements (Carryover from 18MY)

Black Brake Calipers Option

Similar to SVAutobiography Long Wheelbase, the Black Brake calipers feature a black painted finish with Land Rover branding on the front calipers and will now be available as an option on HSE, Supercharged and PHEV.

ADVANCED DRIVER ASSISTANCE SYSTEMS (ADAS)

19MY maintains ADAS simplification into two groups of packages: Drive and Park Packs. But a further enhancement is made via Level 3 Drive Assist Pack.

Level 1 Packs (Drive & Park Packages)

Feature warnings to the driver of a potential danger (e.g. collision, unsafe lane change etc.). These warnings are either messages in cluster, images on infotainment, lights on exterior mirrors, as well as audible tones. These features are standard from Range Rover HSE.

Level 2 Packs (Drive Pro & Park Pro)

Provide assistive features that influence the driver from making unsafe maneuvers via small amounts of steering assist torque to direct the driver against making potentially hazardous maneuvers, or brake application to reduce the severity of an impact. These features are standard from Autobiography.

Level 3 Packs (Drive Assist) **NEW**

An all-encompassing ADAS feature pack that includes all of the features of the Drive Pro and Park Pro packs, the Surround Camera System, and the new ACC w/ Steering Assist.

Wade Sensing

The system provides real-time wading depth information relative to the published max wading capability of the vehicle, using sensors on the underside of the door mirrors, displaying via the touchscreen. The system also provides real time data on the inclination of the vehicle. The user is able to turn the system on using a soft button in the 4x4i screen.

Range Rover achieves 900mm (35.4 inch) wading depth. This feature requires 086GC – Surround Camera System.

Note: Driving in floodwaters or moving water should be avoided. Driving through water can be extremely dangerous, the Wade Sensing feature does not makes it any less dangerous. The Wade Sensing feature only detects depth of water the vehicle is in at the present time and not of water ahead of or around the vehicle. Therefore, Wade Sensing cannot predict whether it is safe to proceed and cannot detect steep drops in grade around the vehicle. The driver is responsible for determining the conditions of the route being driven.

Range Rover PHEV (Plug-In Hybrid Electric Vehicle)

New and essential to Jaguar Land Rover, the Plug-in Hybrid Electric Vehicle (PHEV) is a major advancement in powertrain technology. This innovative powertrain combines the lightweight AJ20-P4H 2.0L i4 'Ingenium' Gas engine making 296HP with an 85kW electric motor and Plug-in technology to deliver a total combined power of 398HP providing Range Rover performance in a more fuel efficient powertrain.

PHEV – What is it?

A Plug-in Hybrid Electric Vehicle (PHEV) is normally defined as a vehicle with all of the following key components:

- Internal combustion engine (Ingenium 4 Cylinder)
- Electric motor/drivetrain (Approx. 85 kW)
- A large high voltage battery (Approx. 13kWh)
- On-board charger to charge large capacity battery. (7kW on-board charger)
- A plug in charge point and cable to allow battery charging in between drives.
- Integrated Starter Generator (ISG)
- Regenerative braking – Regenerative braking uses the electric motor to recovery energy while decelerating or braking to recharge the high voltage battery.

How it works:

- **Charging** - Vehicle charging from an external power supply enables large EV range via a high voltage battery in the vehicle, on board charger and the customer charge cable
- **EV Driving** – The electric motor in the transmission uses the stored energy to provide torque, which is delivered to the drivetrain via the transmission
- **Parallel Driving** - The 2.0L Petrol internal combustion engine (ICE) will restart seamlessly when required during customer usage
- **Slowing Down** - Energy recuperation whilst driving also provides energy into the high voltage battery for later use

P400e – Driving Modes and Features

P400e normally operates in Parallel Hybrid mode which is when both the electric motor and gas engine work together to optimize performance and efficiencies. When in Parallel Hybrid mode, there are 2 driver selectable energy management modes:

- **Predictive Energy Optimization (PEO):** Activated when the driver enters a destination into their navigation system. Predictive Energy Optimization utilizes data for the route selected through the Navigation system including traffic info, elevations and road type.
- **SAVE:** SAVE driving mode prevents the battery charge from dropping below a set level. The vehicle will only use the electric motor if the battery has received a charge over and above the set level through regenerative braking

Alternatively the driver can select the Manual EV mode which enables the vehicle to run solely on the electric motor using the energy stored in the battery. This is ideal for quiet, zero tailpipe emission journeys. The system will revert to the gas engine should the driver demand greater acceleration than is achievable through the electric motor alone, or if the battery charge drops to an insufficient level.

Note: Terrain Response program 'Sand' and 'Rock crawl' are not available with Manual EV mode due to Sand program requires maximum power and an inadvertent engine start is undesirable in Rock crawl.

Range Rover Performance with PHEV Efficiency

The combined 398HP PHEV powertrain; 296HP from the AJ20P4-H 2.0l 'Ingenium' Gas engine and 85 kW electric motor, will power the car from 0-60 mph in under 6.3 seconds with a VMAX of 137mph. The P400e really comes into its own when driving in the city or driving short distances where full electric drive mode can be used for up to 31 miles when fully charged, delivering pure emissions free driving.

Please note: The PHEV performance figures quoted are the latest manufacturer estimates and subject to change.

Plug-in Hybrid Charging Solutions

To realize the full benefit of the P400e's powertrain and the performance figures outlined, it is necessary to frequently charge the vehicle using an external power source – strong recommendation is to charge the vehicle overnight after/prior to each use.

Please note: If the vehicle is not used for 30 days or more, it is essential that the high voltage battery is charged. For longer inactivity periods, charge the high voltage battery every 30 days. Leaving the vehicle on charge is acceptable and will maintain battery health. Failure to follow this instruction may invalidate the battery warranty.

The average time to achieve a full charge is about 14 hours in the US using conventional wall outlet of 110volts. Significantly shorter charge times can be achieved with a 220volt power supply and charger. Always remember that charging times vary based on the type of power supply and charger used.

In addition to home charging solutions public charging stations are becoming more popular and can provide on the go charging options to further increase efficiency from the Range Rover PHEV.

Please note: Due to the battery storage location in the cargo space, there will be a small step in the cargo space area that reduces the total cargo space volume compared to a non-PHEV vehicles. In addition there will not be a spare tire available for fitment. Tire repair system is the only available option on PHEV.

Seating Improvements

In addition to the information that was released in the 18MY brief, the following information further explains the improvements and seating options made at 18MY Mid-Cycle Refresh.

One of the most significant changes to the 18MY Range Rover was the all new interior environment, creating world class comfort and luxury for all occupants. The visibly wider, plusher driver and front passenger seats bring Range Rover's already premium interior to a new level of luxury, akin to the First Class qualities of premium airlines. Enhancements included:

- Wider, deeper foam with new interlayers to improve comfort in all seats.
- Seat controls relocated to door panel to accommodate wider seat foundations and to make the operation of the seat more accessible and intuitive.
- The 20-way heated front seats (standard on HSE & Supercharged models) are upholstered with Perforated Windsor Leather and feature 4 way electric front head rest, Driver/Passenger memory.
- The 24-way Semi-Aniline Leather front seats (standard on Autobiography) provide increased functionality for total comfort, alongside integrated climate and massage settings, and the option of a stress-relieving Hot Stone Massage function.

Rear Seating Improvements

As with the front row seats, the 60:40 bench seat has visibly and experientially wider seat frames, foams and comfort interlayers offering significantly improved levels of comfort. Improvements include:

- The front seat tracks are now positioned further apart allowing more space for the rear passenger's feet.
- Intelligent Fold with power recline.
- Passenger Seat Away.

Improved Rear Executive Class Seats

The improved Executive Class Rear Seating (now standard on Autobiography) is upgraded not only with improved new seat frames, foams and comfort interlayers as with the front and bench seats, but with a power deployable center console which offers the 4 seat comfort and environment, with 5 seat convenience.

Features include:

- Wider seat frame where the seat cushion leads into a leather wrapped C-Pillar, giving the impression of a wrap-around seating for a lounge-like experience.
- Climate Seats with 40° powered recline.
- Extreme Passenger Seat Away moves the front row passenger seat into the most extreme position furthest away from the rear occupant to maximize rear occupant space and forward visibility for the rear passenger, including folding the front passenger head rest.
- Remote Intelligent Seat Fold is also offered as standard with the Rear Executive Class seats. Launched on L462 @ 17MY, this offers customers the ability to conveniently fold the rear seats into a configurable position using the touchscreen, or using a Remote App.
 - The Intelligent Fold feature also includes rear occupant detection sensors to prevent the seats from folding if there is an obstruction.
- Comfort Controller - connects your personal device to the vehicle, enabling configuration of the following: Climate Settings, Seat Massage Settings, Seat Heating/Cooling, and Seat Heat Zoning Settings.

- The Power Deployable Center Console features premium storage, deployable cup holders and a removable vanity mirror.
- On Long Wheelbase, both left and right sun blinds can now be controlled from one side.

NOTE: Bench Seat remains an option (NCO) for Autobiography models (VISTA code 300LZ)

- New: 24-Way Heated/Cooled, Massage Front Seats w/ Power Recline Heated/Cooled Rear Seats- combines the electric rear bench with the 24 way massage front seats. This gives the customer the same front seat functionality with the versatility of a rear bench seat.

- **Seat Cover Finishing**

In order to deliver the increased comfort provided by these improved foams, the seat covering has a relaxed tension to enable the leather to deflect in accordance with the new seat foams, which is visible in a number of ruched contours in the material. This loose fitting covering is consistent with other luxury seat offerings and is necessary to achieve the improved levels of comfort. See the example below:

Rear Executive Class Seating Options

The Rear Executive Class seats can be further enhanced with one of the optional seat styles. All of these features are designed to maximize occupant comfort, with a variety of options to suit one’s needs:

Option Code	Description
300PB "Comfort"	Includes contents of the Rear Executive Class Seat, plus: Hot Stone Massage (front and rear), Rear Upper Seat Articulation and Rear Adjustable Bolsters, pillow pack.
300PC (SWB Only) "Comfort Plus"	Includes contents of the Rear Executive Class Seat, plus: Hot Stone Massage (front and rear), Rear Upper Seat Articulation and Rear Adjustable Bolsters, heated calf rest, heated map pocket and power deployable heel catcher (all behind passenger only), heated power deployable center console and heated door armrest, console trim upgrade with veneered load-through, and additional pillows for use on the head rests and calf rest.
300PD (LWB only) "Comfort Plus"	Includes contents of the Rear Executive Class Seat, plus: Hot Stone Massage (front and rear), Rear Upper Seat Articulation and Rear Adjustable Bolsters, heated calf rest and heated map pocket (both behind driver and passenger), power deployable heel catcher (behind passenger only), heated power deployable center console and heated door armrest, console trim upgrade with veneered load-through, and additional pillows for use on the head rests and calf rests.

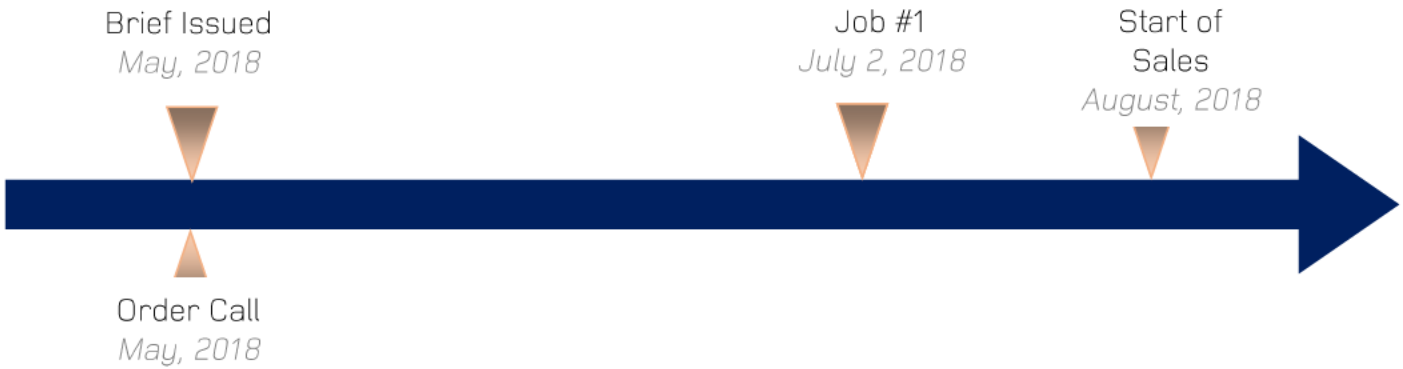

2. LAUNCH TIMING

Reveal

- US Reveal August, 2018

Launch Timing

- Retailer Order Call: May, 2018 Will be announced by distribution.
- On-Sale: August 2018 (TBC)

3. STANDARD EQUIPMENT SPECIFICATION WALK

Range Rover SVAutobiography LWB:

Powertrain/Dynamics

- 557hp 5.0L AJ133 V8 Supercharged Gas Engine, Unique Suspension Calibration, Black Brake Calipers with Land Rover Branding

Exterior

21" 7 Spoke 'Style 7006' Alloy Wheel w/ High Gloss Polished Finish, Body-Colored Roof, SVAutobiography LWB Exterior Accents [Chrome Badging w/ Black Knurled Insert Hood and Tailgate Lettering, Unique SVAutobiography LWB Grille, Atlas: Grille Mesh Foil, Front Bumper Accent/Vent Finisher - Bright Chrome: Grille Inner Surround, Door Handle Surround, Tailgate Finisher], Body-Colored Side Vent Graphic w/ Chrome Inserts, "SVAutobiography Badge"

Interior

24-way [22-Way Power, 2-Way Manual] Heated/Cooled, 'Hot-Stone' Massage Front Seats with Fixed Center Console Executive Class Comfort-Plus Rear Seats (includes Zenith Branded Clock, Heated Calf Rest Behind Driver/Passenger, Leather Cushions, SVO Luxury Finishers), Deployable Tables with Leather Finish, Mohair Mats with Leather Binding, Satin Santos Palisander Veneer, Wood and Leather Steering Wheel, Rear Side Door Power Blinds and Map Pockets, Front Center Console Cooler Compartment and Rear Seat Refrigerator Compartment, CD/DVD Player, 10" Rear Seat Entertainment, 110-Volt/150-Watts Power Outlet (1x in Row 2 & 1x in Cargo Area), Power Close Rear Doors

Range Rover SVAutobiography Dynamic:

Powertrain/Dynamics

- 557hp 5.0L AJ133 V8 Supercharged Gas Engine, Unique Suspension Calibration, Red Brake Calipers with Land Rover Branding, Unique Air Intake

Exterior

21" 5 Split-Spoke 'Style 5005' Alloy Wheel w/ Dark Grey Finish, Black Contrast Roof, Modified Rear Bumper w/ Integrated Metal Exhaust Finishers, SVAutobiography Dynamic Exterior Accents [Chrome Badging w/ Black Knurled Insert Hood and Tailgate Lettering, Unique SVAutobiography Dynamic Grille, Graphite Atlas: Grille Mesh Foil, Front Bumper Accent/Vent Finisher, Side Vent/Accent Graphic, and Tailgate Finisher - Bright Chrome: Inner Grille Surround, Door Handle Surround], "SVAutobiography Dynamic"

Interior

Quilted Perforated Semi-Aniline Leather Seats, 24-way [22-Way Power, 2-Way Manual] Heated/Cooled, 'Hot-Stone' Massage Front Seats with Executive Class Comfort-Plus Rear Seats (includes Upper Seat Shoulder Support and Adjustable Bolsters, Heated Calf Rest, Foot Rest, Dedicated Foot-Warming Area Behind Passenger Seat, Heated Power Deployable Center Console, Heated Door Armrest, Pillow Pack, Vanity Mirror), Leather Wrapped Pillar Lower, Steel Weave Carbon Fiber Trim Finisher, Leather Steering Wheel, Illuminated Aluminum Treadplates w/ SVAutobiography Lettering, Perforated Leather Headlining, SVAutobiography Pedals w/ Knurled Effect

Range Rover Autobiography:

Powertrain/Dynamics

- 518hp 5.0L AJ133 V8 Supercharged Gas Engine, All Terrain Progress Control (ATPC), Terrain Response 2, Active Rear Locking Differential, Full Size Spare Wheel, Tow Hitch Receiver, Advanced Tow Assist

Exterior

21" 7 Split-Spoke 'Style 7001' Alloy Wheel with Light Silver Diamond Turned Finish, Atlas [Front Bumper Accent and Vent Blade, Side Vent and Side Accent Graphic, Door Handle Surround], Auto High Beam Assist (AHBA), Front Fog Lights, "Autobiography" Badge

Interior

Perforated Semi-Aniline Leather Seats, 24-way [22-Way Power, 2-Way Manual] Heated/Cooled, Massage Front Seats with Executive Class Rear Seats, Convenience Fold w/ Remote Intelligent Seat Fold, Intelligent Cargo Mode, Power Deployable Center Console (2nd Row), 40:20:40 Split Fold, Wood and Leather Steering Wheel, Extended Interior Trim Palette including Leather Center and Lower Dashboard, Full Leather Door Panels, and Leather Center Console Sides, Suedecloth Headliner, Rear Vanity Mirrors, Satin Straight Walnut Veneer, 4-Zone Climate Control, Embossed 'Autobiography' script on center rear seat, Illuminated Aluminum Treadplates with Autobiography lettering, Premium Carpet Mats (Front and Rear), Bright Noble Plated Gearshift Paddles, Bright Metal Pedals, Configurable Ambient Interior Lighting
LWB Only: CD/DVD Player, 10" Rear Seat Entertainment

Technology

Meridian™ Signature Sound System (1700 Watts, 29 Speakers inc. Subwoofer), Drive Pro Package [Blind Spot Assist, Adaptive Cruise Control w/ Queue Assist & Intelligent Emergency Braking, Lane Keep Assist], Park Pro Package [Park Assist - Parallel/Perpendicular], Surround Camera, Head-Up Display

Range Rover Supercharged:

Powertrain/Dynamics

- 518hp 5.0L AJ133 V8 Supercharged Gas Engine, Dynamic Response (Active Cornering Enhancement)

Exterior

21" 6 Spoke 'Style 6002' Alloy Wheel, "Supercharged" Badge

Interior

LWB Only: 7.87 Inches (200 mm) Longer Wheel Base / 7.3 Inches (186 mm) Additional Rear Seat Legroom, Illuminated Metal Treadplates with Range Rover Lettering, Rear Side Door Power Blinds and Map Pockets, Door Accent - "L" Insignia Letter on Lower Door Side Trim to Indicate Long Wheelbase (LWB)

Range Rover HSE:

Powertrain/Dynamics

Choice Of: • 380hp 3.0L AJ126 V6 Supercharged Gas Engine • 254hp 3.0L Td6 Diesel Engine, Upsized front brakes with Land Rover Branding on 380HP V6 Gas Engine (requires 20" Wheel for clearance)

PHEV Only: Terrain Response 2, Tire Repair System (No Spare Wheel)

Exterior

20" 12 Spoke 'Style 1065' Alloy Wheel, Soft Door Close, Gloss Black Grille Mesh w/ Atlas Foil, "HSE" Badge

PHEV Only: "P400e HSE" Badge

Interior

Perforated Windsor Leather Seats, 20-way Power Heated Front Seats including Driver/Passenger Memory with Power Recline Heated Rear Seats, Heated Steering Wheel

Technology

Drive Package [Blind Spot Monitor, Traffic Sign Recognition & Adaptive Speed Limiter, Driver Condition Monitor], Park Package [Clear Exit Monitor, 360 Parking Aid, Rear Traffic Monitor], PHEV Only: Meridian™ Surround Sound System (825 Watts, 19 Speakers inc. Subwoofer)

Range Rover:

Powertrain/Dynamics

Choice Of: • 340hp 3.0L AJ126 V6 Supercharged Gas Engine • 254hp 3.0L Td6 Diesel Engine, Intelligent Stop/Start, Permanent Four Wheel Drive, Drive Select Rotary Shifter, 8-speed automatic transmission with steering wheel mounted paddle shift & 2-speed electronically controlled transfer case, 4-corner Electronic Cross Linked Air Suspension (Access, Standard, Intermediate Off-Road, and Extended Modes), Terrain Response® system (including Dynamic, Eco, and Comfort Program), Adaptive Dynamics, Electronic Power Assisted Steering (EPAS), Low Traction Launch, EBD / HDC / 4ETC / CBC / DSC / ARM / TPMS / Roll Stability Control

Exterior

19" 5 Split-Spoke 'Style 5001' Alloy Wheel, Privacy Glass fitted to rear doors, quarter windows and rear window with Laminated Hydrophobic front/rear door glass, **Sliding Panoramic Roof including Power Gesture Blind**, Premium LED Headlights with LED Signature and Power Washers, Rear Wash Wiper, LED tail light & turn signals, Rear fog lights, Gloss Black Grille Mesh w/ Shadow Atlas Foil, Auto-Dimming, Heated Power Fold, Door Mirrors w/ Memory and illuminated Range Rover silhouette Approach Lights, Solid Aluminum Roof Panel, Powered Gesture Tailgate, Heated Rear Window, Solar Attenuating Windshield Glass

Interior

Three-zone automatic climate control, Rear center arm rest with storage, Illuminated vanity mirrors, Driver and Passenger Leather Front Seat Armrests, Power adjustable steering column (entry and exit tilt away with reach and rake), Leather Steering Wheel w/ Hidden-Until-Lit Controls, Grained Leather Seats, 16-way [12-Way Power, 4-Way Manual] Heated Front Seats including Driver/Passenger Memory with Manual Recline Rear Seats, One-touch Down Driver & Passenger Windows, Aluminum Treadplates with Range Rover Lettering, Morzine Headlining (Cirrus or Ivory), Front & Rear Carpet Mats, Front & Rear Cupholders, Split 60/40 folding rear seat with load through, Loadspace Anchor Provisions, Loadspace Cover (Hinged with Hardcover), Interior Mood Lighting, Kalahari Veneer

Technology

Interactive Driver Display (12.3" TFT Instrument Display), Front/Rear Parking Aid, Rear View Camera, Auto-Dimming Interior Mirror, Rain sensing wipers, Bluetooth® Phone Connectivity, Bluetooth® Audio Streaming, Push Button Start with Keyless Entry, Perimeter Alarm with engine immobilization, Garage Door Opener (HomeLink®), Pro Services for Warranty Period (Includes WiFi), Touch Pro Duo, Navigation Pro, Voice Control, Meridian™ Sound System (380 Watt, 13 Speakers inc Subwoofer), SiriusXM™ Satellite Radio & HD radio, InControl Apps™, InControl Remote & Protect™, Emergency Braking, Lane Departure Warning, Cruise Control w/ Speed Limiter

Safety

Reduced-Section Alloy Spare, Tire Pressure Monitoring System (TPMS), Airbags (Front, Side, Curtain) w/ Passenger Seat Occupant Detector, Rear ISOFIX (LATCH), Power operated child locks, Electric Parking Brake, Emergency Brake Assist (EBA), Anti Lock Braking System (ABS)
